

Wichita Air Traffic Control Tower

Tour Guidelines

To ensure you have the best possible experience while we continue to provide safe and orderly service to our flying customers, please abide by the following tour guidelines:

1. Please bring a photo I.D.
2. Unless absolutely necessary, please do not bring backpacks, bags, purses, etc. into the building. If you do, it will be subject to search and you may not be able to keep it on your person while in the operating quarters (tower and radar room).
3. No pictures are allowed inside the building. You can take pictures outside of the building if you would like, but unfortunately we cannot allow pictures to be taken inside.
4. No children under the age of 16.
5. Cell phones and any other electronic device, must be in the **“OFF”** position while in the building. “Airplane Mode” and “Silent Mode”, etc. do not work, they must be completely turned off. We do not want to take the chance of your electronic device causing interference with our air traffic equipment.
6. Your tour guide(s) will be current air traffic controllers so feel free to ask lots of questions, however; please keep the noise levels down especially while in the tower and radar room.
7. Unfortunately, we do not have available parking for you while you are here at the tower. Unless you can find something else on your own, the best available parking would be in the airport terminal “Short Term” parking lot. You will be responsible for the parking fee.

Thank you for touring the Wichita Air Traffic Control Tower and we hope you have a great and informative time. If you have any questions or concerns about any of the items on this attachment, please feel free to contact Dana Farris, at 316-350-1503 or dana.farris@faa.gov.

Thank you.
